APP ADVERTISING / ACTIVITY

missAPP has the tailor-made solution for your customer needs!

The missAPP is based on the interactive user behavior of the target group and transfers the Social Network fan base into a mobile platform with extremely high interaction rates which is adjusted to the target group's needs!

With an activity, your brand is anchored in the mindset of female millennials, in which I playfully deal with the advertising content.

PHOTO VOTING

Product images from the client are displayed for voting.

PHOTO UPLOAD

Images uploaded by users are displayed for voting.

PHOTO STATEMENT

The users can upload a combination of picture and text statement on a given subject / product. The community then votes for their favourite statement.

TEXT STATEMENT

The users can upload a text statement on a given subject / product. The community then votes for their favourite statement.

QUIZ

miss asks about 4 to 8 questions about the product / brand. It's a multiple choice quiz.

POLL

miss creates a question with eight multiple choice answers max., which refer to the brand / product.

PERSONALITY TEST

miss asks questions about a specific topic and depending on the answers given will be one humorous result displayed in combination with your brand / product.

LOOKBOOK

(Product-) photos of the customer as a digital catalog with up to 20 slides & max. 4 plus signs (= 80 products). Direct linking to an online shop, landing page or MYmiss possible.

DIGITAL

APP ADVERTISING / MYmiss
